

5 Money Saving

TIPS FOR MOVING

GET AN ACCURATE ESTIMATE

Getting an accurate moving estimate will ensure you aren't hit with any surprise fees once your move is complete. If you're hiring professional movers, be sure to get more than one estimate and compare prices!

DONATE OR SELL ITEMS

Most movers charge by shipment weight, so the more you have, the more you'll pay. Consider decluttering by hosting a yard sale or donating unwanted items before your move.

MOVE DURING OFF-PEAK TIMES

It's more common to move during the summer, and on weekends, so moving during those times will likely be more expensive. When you're looking to save, schedule your move during the week and in the Spring or Fall.

FIND USED BOXES

Boxes do not seem expensive, but they can really add up! Instead of purchasing boxes new, visit local stores to see if they have used boxes going to recycling that you can buy, or have for free.

DONATE TO MOVE FOR HUNGER

Instead of throwing away your canned and boxed food, see if your mover partners with MoveForHunger.com. If they do, your moving crew will pack up your food and deliver it to a local food pantry free of charge.
